

## Reviewer Acknowledgment

### December 2018

I am writing on behalf of my co-editors, Dr Helen Buchanan and Prof Lindy McAllister, and technical editor Dr Virginia King, to thank all colleagues who have so generously contributed to the journal as peer reviewers during 2018. We know that for most people peer reviewing is completed in your own time and brings intrinsic satisfaction rather than any explicit recognition. Nevertheless, your contributions are highly valued as helping to enhance the quality of journal content. We very much appreciate your commitment to the journal and look forward to our ongoing relationship with you.

*Lynn Clouder, Editor in Chief*
